FIGURE 8(a)

FIG. 8(b) is a perspective view of the device 100 in a second position, where the device 100 is tilted relative to the horizontal plane. The device 100 includes a base 54, a top surface 56, and a side surface 58. A dashed line 42 indicates a hinge or joint between the top surface 56 and the side surface 58. A dashed line 44 indicates a hinge or joint between the side surface 58 and the base 54. A dashed line 46 indicates a hinge or joint between the top surface 56 and the base 54. A dashed line 54a indicates a hinge or joint between the top surface 56 and the side surface 58. A dashed line 89 indicates a hinge or joint between the side surface 58 and the base 54. Arrows indicate the direction of movement of the device 100.
